

STRENGTHS OF EDUCATIONAL RESOURCES

Technology

- Allows cost-effective learning at scale
- Can use big data to make well-informed recommendations for students
- Allows for flexibility and personalization
- Provides learning experiences that would not otherwise be reasonable

Instructors

- Provide high quality feedback and remediation
- Develop professional and personal skills to reach goals
- Dynamically support students

Peers

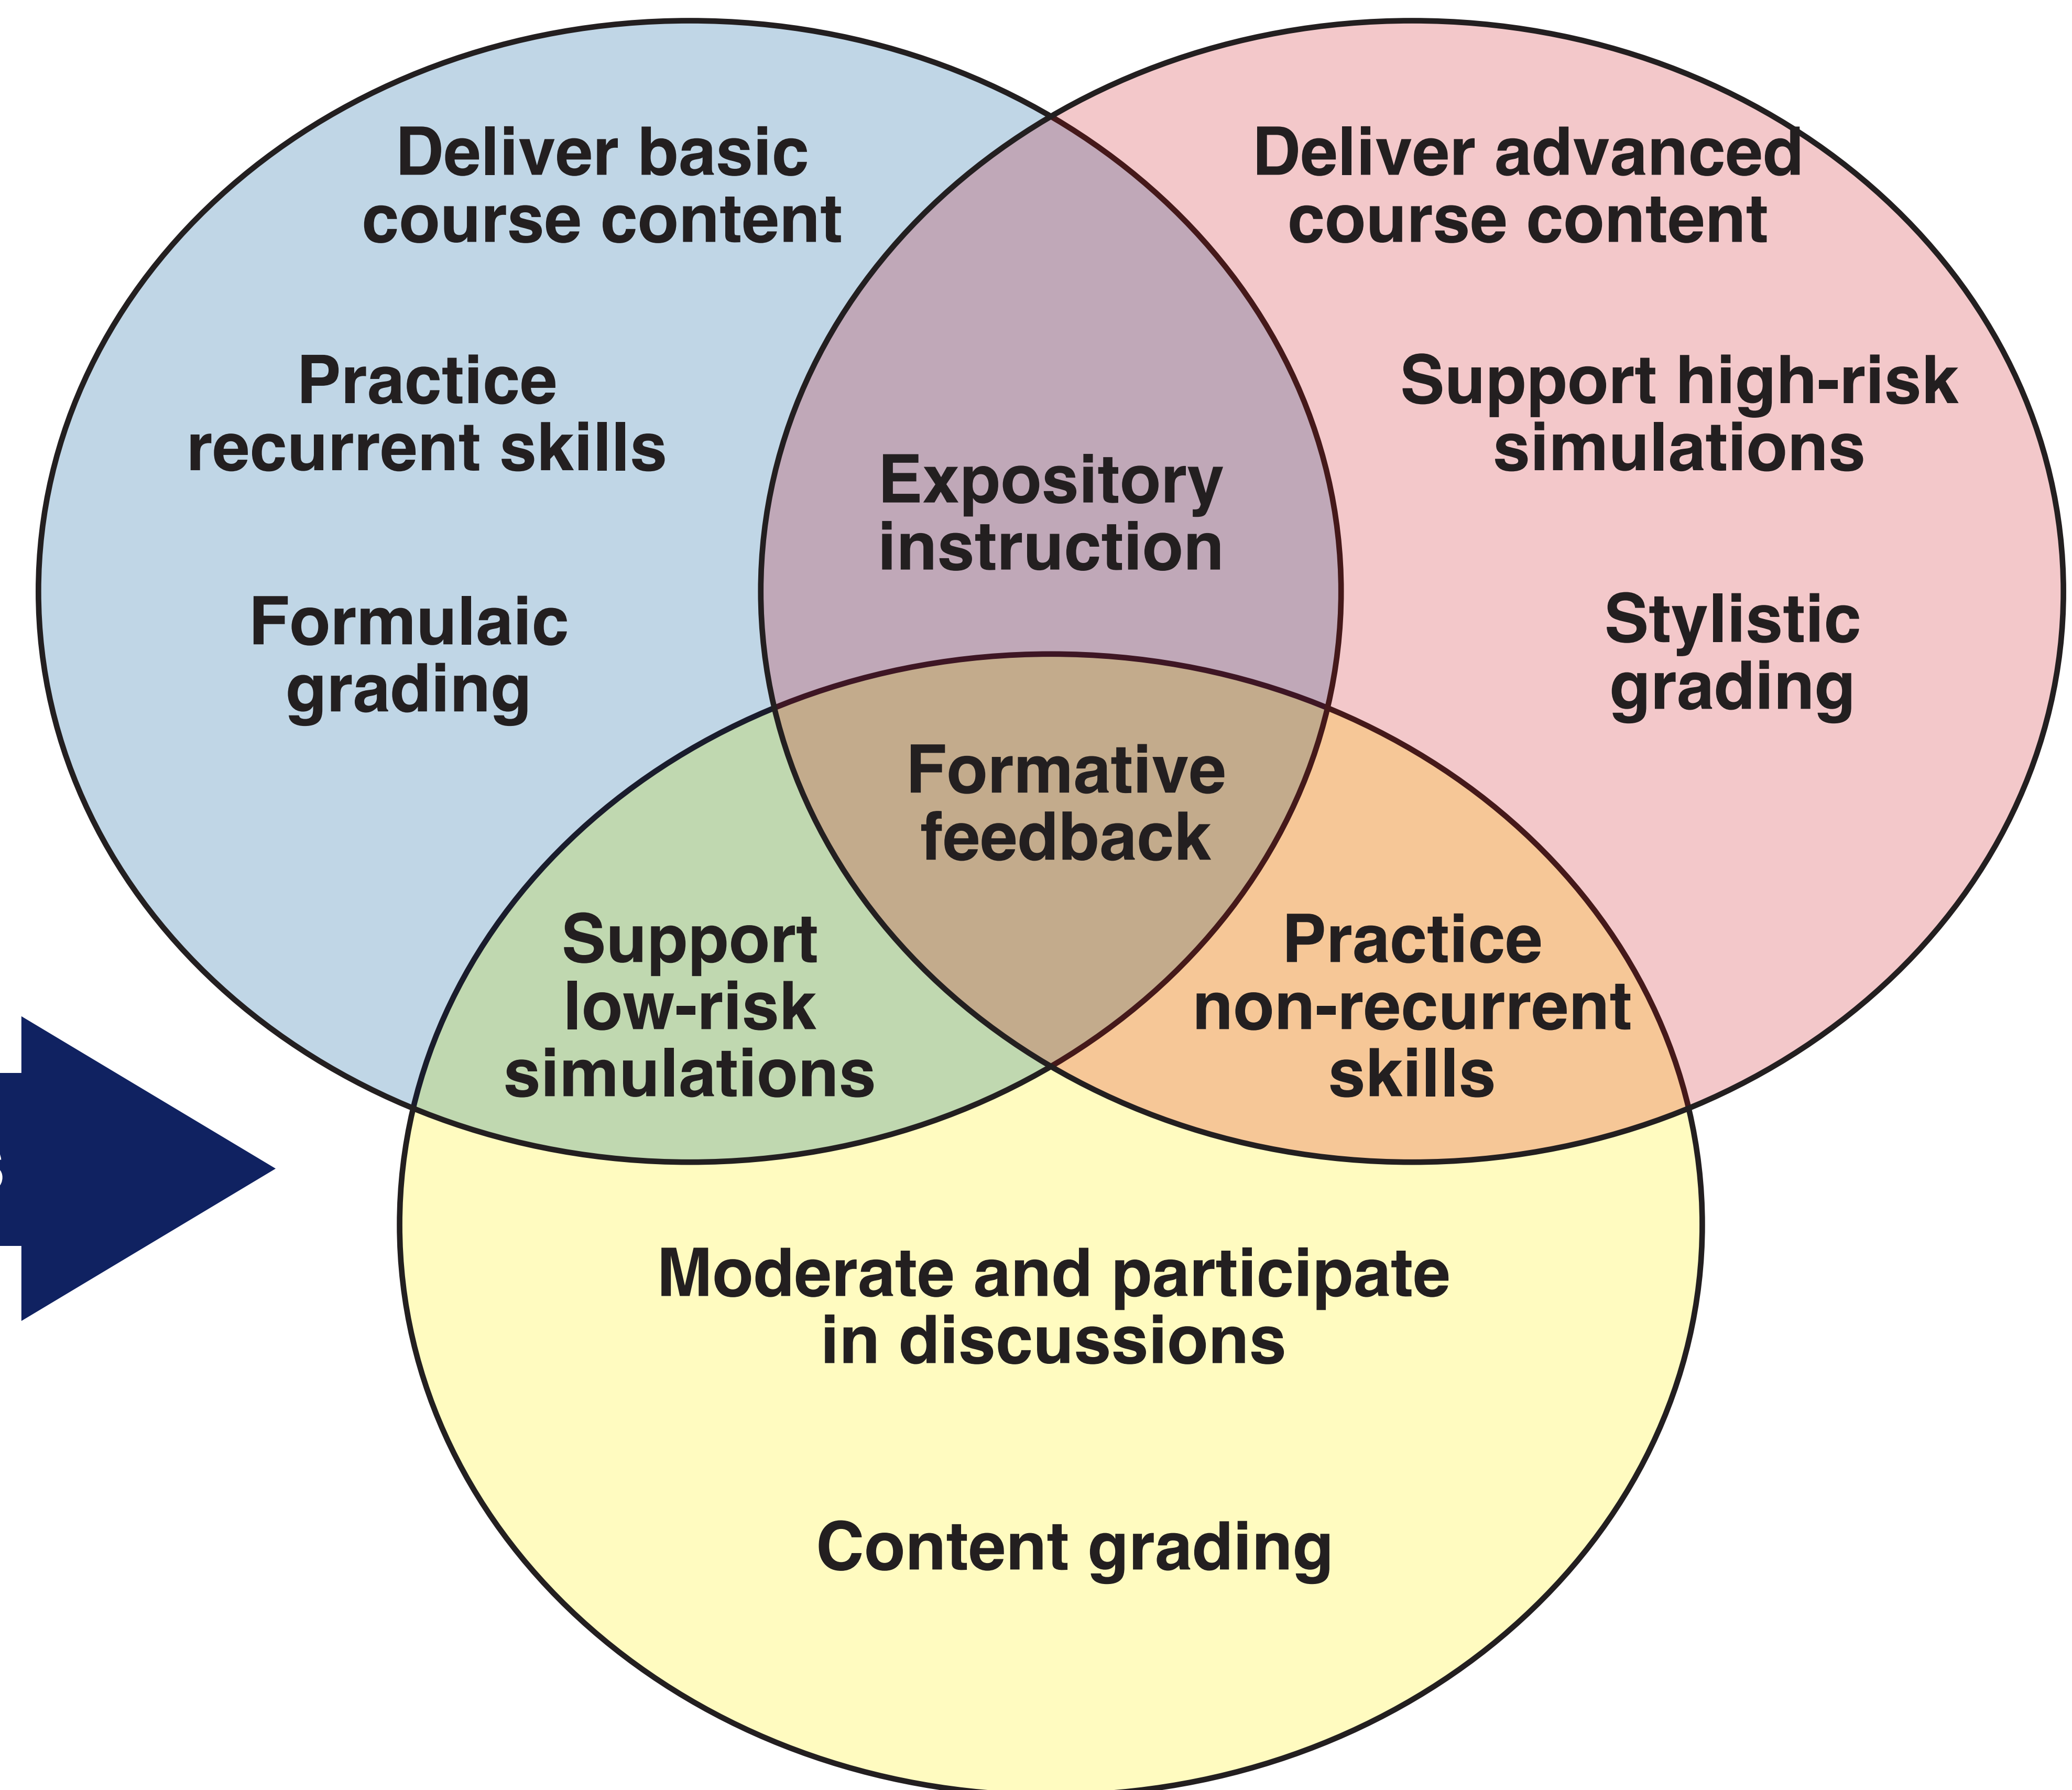

- Provide low-cost instruction for classes
- Enable different types of learning experiences
- Peers allow for scalable social support
