Communication: Creating the Story through Analytics
1984-85
Fact Book
Georgia Tech

Office of the Vice President for Academic Affairs
Georgia Institute of Technology
Atlanta, Georgia 30332
Edited by Sue Palmer

The Office of Institutional Research and Planning (IRP) is responsible for the
development and maintenance of data resources to support the Georgia Tech community in strategic planning and policy-making processes. We are pleased to fulfill a portion of our mission with the 2002 Georgia Tech Fact Book. This publication was piloted in 1979 and is produced annually to serve the information needs of our internal constituents.

This edition captures student information through Fall Semester 2002 and fiscal year data through June 30, 2002. Some data sets show trends for ten years from 1993 through 2002 while others cover a five-year period or provide the latest year's update.

Sources for the data and information are shown in the lower left-hand corner of each page. It is assumed that the data provided by the source offices are recent and accurate. You may wish to contact the source office directly if additional information is required. Pages without a source listing were prepared by the IRP staff.

We invite your comments regarding the 2002 Fact Book and welcome suggestions for future editions. Your continued interest and support are appreciated.

Sandi Bramlett
Director
Office of Institutional Research and Planning
